

## Parking Instructions

Our quaint location has a couple short comings. The primary one would be the parking. For this reason, we have added some and want to make sure we solicit your help to make everyone's coming and goings easy.

1. Do NOT arrive more than 10 minutes early. Preferably it would be no more than 5. If you are earlier than 10 minutes, please wait on the small road before our building till the time is right to park
2. ALL clean-up, beard trim and consultations (15-minute services) must park next door at the bike shop. When you enter their lot, park directly on your left in the space next to the very TALL sign.
3. All services for 30 minutes or longer are to park either in the front three spots directly in front of our space. This would include in front of our door too.
4. We have a spot located at the back of the bike shop lot that has a sign with By Design on it. This is ONLY for 30 minute or longer services. As you approach the building and see that the front three spots are full, continue to the bike shop and drive back about 40 yards and on the left will be two signs with By Design on them. Parking anywhere else will get a person towed and will be the driver's responsibility.

We appreciate your help with this and hope that this communication will make your visit trouble free.
